Department of Natural Resources and Conservation LAND BANKING REPORT July 2011

Background:

HB 223 (77-2-361 through 367, MCA) passed the Legislature in 2003 with bipartisan support, including unanimous support from the Land Board. HB 223 enacted a Land Banking program whereby the proceeds of trust land sales would be placed in a special land banking account which could only be used to acquire other real property interests (land, easements, or improvements. In 2009 the Legislature passed HB 402, removing the sunset and capping the number of acres that could be sold through Land Banking at 250,000.

Statute requirements:

- Limits sale of land to 250,000 acres
 - o 75% of the 250,000 acres must be isolated land
 - o Limits sales to 20,000 acres until replacement properties were purchased
- Replacement land must generate as much or more revenue than the land sold
- The Department is required to provide a report to the Environmental Quality Council prior to each regular legislative session, which describes the results of the Land Banking program in detail.

Goals of the program:

- Increase public access to state trust land
 - 157,139 acres have been nominated for sale
 - 49,720 acres have been sold, 94.5% were isolated
 - 48,084 acres have been purchased, all are legally accessible with recreational opportunities
- Improve the investment portfolio of the beneficiaries by diversifying land holdings
 - o lands sold generated \$79,545 annually
 - o lands acquired will generate \$341,469 annually
 - lands sold are predominately isolated grazing lands and the lands acquired include agricultural, grazing and timbered lands
- Enhance management and stewardship activities with land consolidation
 - lands acquired are contiguous and in most cases consolidate existing state ownership

Milestones:

- A Negotiated Rulemaking process was approved by the Board of Land Commissioners in June 2004, and the Committee was initiated in October 2004.
- Administrative Rules (ARM 36.25.801 through 817) were given final approval by the Board of Land Commissioners in September 2005. Rules have been amended to reflect 2007 statutory changes.
- **552** parcels containing **157,139** acres have been nominated for sale since program inception. Processed and sold **49,720** acres of land consisting of **224** parcels. **46,971** acres were isolated (94.5%), while **2,749** acres were legally accessible (5.5%).
- Agency is currently processing 4,374 acres of land for sale; 2,615 isolated (60%); 1,759 legally accessible (40%).
- **48,084** legally accessible acres in **11** parcels have been purchased.
- Income generated annually from parcels purchased (\$341,469), has increased trust revenues 329% over income generated from parcels sold (\$79,545).

LAND BANKING SALES CLOSED

Land Banking Rules require a rigorous examination of trust land prior to sale, including evaluation using the Montana Environmental Policy Act (MEPA) process, appraisal, notification of lessees, beneficiaries, adjacent landowners, licensees, publication of legal notices, culminating in public auctions after which final Board approval is required.

Trust Land Sold via Land Banking 2006 – July 1st, 2011

Sales by Trust

			ANNUAL	AVERAGE RATE of
ACRES	GRANT	SALES PRICE	INCOME	RETURN
44,717	Common Schools	\$22,809,572	\$68,384	.30%

Average Sale Price per acre for Sold Parcels = \$501 Average Income per acre for Sold Parcels = \$1.60

LAND BANKING ACQUISITIONS

Criteria for tracts acquired:

- Increasing rate of return compared with the land sold.
- Improving access and consolidating land holdings.
- Maintaining a similar land base consistent with the state's fiduciary duty.
- Considering equalization of land base through sales and acquisitions by geographic area.

The following table summarizes replacement property acquired with Land Banking proceeds. Note that while **49,720** acres were sold generating **\$24,923,247** in sales revenue, the state has acquired **48,084** acres while spending **\$22,871,457**. Additionally, the replacement acreage is all publicly accessible, while producing more then twice the rate of return to the beneficiaries.

Tracts Acquired Through Land Banking 2006 – July 1 st , 2011								
Tract	County	Acres	Purchase Price	Appraised Value	2010 Net Income	2010 Income Rate of Return	Purchase Date

North Swan (Phase 1)	Lake	1,914 Timber	\$1,435,830	\$1,435,830	\$13,784	0.96%**	December-10	
	TOTALS	48,084	\$22,871,457	\$23,906,430	\$341,469	1.49 % Avg.		

Average Cost per Acre for Acquisitions = \$476 Average Income per Acre for Acquisitions = \$7.10

The projected range of ROR for timberland over a 60 period is .96% to 2.13%

** 2010 Purchase - Rate of Return based on projected income at time of purchase.

^{*} Rate of Return only reflects secondary income from grazing, timber will be harvested from the property during the next 60 years.
